

INDIAN HOTELS LTD

Call Update: Indian hotel, Kindly Exit at 394; at cost. (Due to the high bond yield in the USA (the highest since 2007) and geopolitical tension, the near-term outlook can be weak and uncertain for global as well as Indian indices; hence, we wish to exit the calls at cost.)

Note: This report is in continuation of our following report dated, 25th August, 2023.

Script Name	CMP	Recommendation	Target	Stop-loss	Time Horizon
INDIAN HOTEL	396	Buy CMP till declines @ 393	450	373	3-5 Months

The Indian Hotels Company Ltd. is primarily engaged in the business of owning, operating, and managing hotels, palaces, and resorts. As of Q1 FY24, the company has 191 hotels with a total inventory of 22,000 rooms. It also has a pipeline of 79 hotels, increasing the Taj, Vivanta, and Ginger portfolios. It is the largest hotel player in India, ahead of Marriott, Radisson, ITC, and other large corporations.

On the daily chart, the stock price of Indian Hotel is trading in a strong uptrend and forming a higher high pattern. After rising by 30% since March '23, the price has corrected and formed wave 4 of the impulse wave. The stock is expected to witness a sharp bounce from the cluster of supports, including the trend line, 100 DEMA, and super trend indicator. Further RSI oscillators are also showing signs of reversal after taking support around the 40 level, suggesting strength.

With the above rationale, we expect the bullish momentum in the Indian hotel market to continue and rally by 15–18% from the current levels. We recommend adding longs at CMP till declines up to 393 levels with a stop loss below 373 levels for targets at 450 levels over the next 3-5 months.
